ACME

Commercial Ways (Pvt) Ltd.

INTRODUCTION

PROFILE

Acme commercial ways was established in 1960. Acme people are driven by heart felt interest in healthcare, wherever their locations, what ever their positions and responsibilities, all share a genuine desire to understand and help the hospital and medical communities they serve.

Acme commercial ways is one of the premier manufacturers of Surgical Instruments worldwide. Originally formed with the goal of producing Surgical Instruments for Surgery and specialty needs with exceptional design, engineering, high value and pleasing aesthetics, the company moved forward rapidly from the very first instrument manufactured, Acme set new bench mark for innovation and features new to the industry with in a few short years, the product line grew to broad array.

Today Acme poised for growth in the 21st century. Our aim is to provide high quality and reliable products to the healthcare community.
Acme is a company for people who cares and intend to set the standard of 21st century healthcare. We look forward to providing the medical community with unmatched sales, services and support.

VISION

Acme people are passionate about advancing the science of surgical instruments. We succeed become we intent a learning more recognizing we can never know enough. Our customers will recognize us as the leading global supplies of quality surgical instruments and selected products. Leadership will result in superior market share and financial performance.
